

Do you have old cell phones collecting dust?

For the next few weeks we will be collecting unused cell phones, which will be recycled by a company in Oklahoma and then given to people for emergency 9-1-1 use.

Not only will the cell phones we collect be used for a good purpose, but also we will receive money for each phone we collect (amount varies depending on make and model). So this is an easy way to help someone, keep cell phones and their batteries out of landfills, **AND** raise funds for our church.

Just bring cell phones with their batteries to the church and place them in the collection boxes. (No chargers or accessories are needed.)

Ask friends, family members, neighbors and co-workers to donate their phones as well. Every phone helps!
